TWELFTH ANNUAL REPORT

OF THE

STATE EXAMINER

OF MONTANA

FOR THE

Fiscal Year Ending November 30, 1906

T. E. COLLINS, State Examiner
F. H. RAY, Assistant Examiner

"INDEPENDENT PUBLISHING COMPANY, HELENA, MONTANA."

OFFICE OF

STATE EXAMINER

Office of State Examiner,
Helena, Montana, November 30, 1906.

Hon. Joseph K. Toole, Governor of Montana.

Sir:—In compliance with the law I submit this, the Twelfth Annual Report of the State Examiner's Office, for the fiscal year ending Nov. 30, 1906.

BANKS.

During the year seven State Banks have been incorporated, as follows:

	Capital.
Hewett State Bank, Basin	\$ 30,000.00
First Trust & Savings Bank, Billings	100,000 00
Citizens State Bank, Big Timber	40,000.00
State Bank of Harlowton, Harlowton	30,000.00
Laurel State Bank, Laurel	25,000.00
State Bank of Terry, Terry	20,000.00
First State Bank of Thompson Falls, Thompson....	20,000.00
<hr/>	
Total new capital	\$265,000.00

Of the thirty-six state banks reported in 1905, the Bank of Valley County, Glasgow, has become a national bank, the First State Bank, Kendall, liquidated, and the Aetna Bank & Trust Co., Butte, was removed from the supervision of this office by the 1905 Legislature (Chapter 104, Section 15), and has recently failed. This leaves forty banks now under State Examiner. To date not a failure has occurred among banks under supervision of the Montana State Examiner.

The total resources of the thirty-nine banks reporting November 12, 1906, was \$23,696,892.43, an increase of \$5,025,325.81 as compared with the thirty-six banks reporting November 9, 1905.

FOREIGN CORPORATIONS DOING A BANKING BUSINESS IN MONTANA.

The 1905 Legislature wisely subjected these to supervision of

State Examiner, and imposed requirements similar to those of state banks, but unwisely provided that the act (Chapter 104) should not apply to any foreign corporation then lawfully engaged in banking. This operated to exempt the Aetna Bank & Trust Co., a West Virginia corporation, in Butte. The Examiner's office, supported by the Attorney General's office, contended that this exemption was unconstitutional and made repeated demands for report, and to be permitted to examine. To enforce these demands action was instituted in the District Court, where the State lost, and then appealed to the Supreme Court, without success.

The recent failure of the Aetna and a loss of several hundred thousand dollars to depositors is a warning example of banking without supervision.

PRIVATE BANKS.

The recommendation in my 1905 report that private banks be placed under supervision and subject to the same restrictions as state banks, both as to capital and method of transacting business, is approved generally by all bankers, both corporate and private. Many of the states of the Union have especially good laws by which the public is protected, as much as can be by law, from dishonest and vicious banking. These laws are held to be constitutional by the courts. While Montana has some private banks of exceptional financial strength, there is no law preventing persons of meagre finances and no experience from doing a banking business.

CERTIFICATES OF AUTHORITY TO BANKS AND BUILDING AND LOAN ASSOCIATIONS.

Because the State Examiner is charged with the supervision of state banks, foreign corporations doing a banking business and building and loan associations, it is best that from his office should issue authority to these organizations for beginning business. As the laws stand some state banks, foreign corporations and foreign building and loan associations are required to obtain certificate from the State Auditor, while other state banks and all domestic building and loan associations are only required to file papers with Secretary of State before commencing business. Most of these laws were enacted prior to creation of Examiner's office, and to effect the desired change it will be

necessary to amend Sections 570, 591 and 621 of the Civil Code, Section 2, page 232, and Section 10, page 235, of the 1897 Session Laws and Sections 1, 2, 3, 4 and 8, Chapter 104, Acts of 1905. (Page 232.)

BUILDING AND LOAN ASSOCIATIONS.

Five domestic and one foreign (the Western Loan & Savings, Salt Lake) building and loan associations are under the supervision of the State Examiner. Two, the Missoula and Big Timber associations, have so recently organized that no statement is due.

Several domestic associations organized prior to creation of this office are subject to the Building and Loan Commissioners. No reports of these come to this office. If the Commissioners were required to report to the State Examiner it would enable him to submit in his report official data of all the building and loan associations of Montana.

These associations are most efficient aids to home building and saving. In contrast with them are some investment company "schemes" of foreign birth and unknown merit, that solicit business in Montana and against which the State provides no safeguards. No foreign investment, building and loan, or similar corporation or association should be allowed to do business in this State without supervision and an annual license from this office.

STATE BOARD OF HORTICULTURE.

Attention has heretofore been called to the disbursements by this Board of its fees, and in letters to the former Secretary it was recommended that the Legislature be asked to appropriate an amount sufficient for all the Board's expense, and not compel the Board to either disburse its collections or cripple its work. The Legislature declined and a practice which does not obtain in any other State office and which is probably illegal, is forced on the Board. However, under methods required by this office, all receipts and disbursements must be properly accounted for.

NORMAL SCHOOL BOND FUND.

Warrants were drawn against this fund in 1905 to the amount of \$14,618.30. Of this \$191 was for expenses incurred in selling bonds and a legal claim against the Normal School Bond Fund; the balance, \$14,427.30, was on account of the Normal School

buildings and could not be legally drawn against or paid out of the Normal School Bond Fund. As there is now outstanding of these warrants \$5,316.35, the amount actually paid out of the Normal School Bond Fund illegally was \$9,110.95.

PERMANENT SCHOOL FUND INVESTMENT.

In this are the following bonds:

School of Mines Building Bonds.....	\$120,000
State Normal School	25,000
Deaf and Dumb Asylum	9,000
	<hr/>
	\$154,000

The State Supreme Court has declared the State Normal School bonds illegal, and the other bonds, being in the same cases are by implication also illegal.

OFFICIAL BONDS.

It is often difficult to enforce collection of personal bonds. Sureties die or become insolvent, and the impaired or worthless bond is not replaced promptly. For this reason alone (and there are others) the law ought to require that any bond given by a state, county or township official be issued by a surety company authorized to do business in Montana, and the cost of such bond should be paid by the State, county or township protected. To prevent any combination and unreasonable rates the proposed law should specify a maximum rate which could not be exceeded.

Without changing the existing methods of approving official bonds it would be well to empower the State Examiner to, at any time, inspect an official bond, and if he found same faulty in form or deficient financially, to enforce demand for a satisfactory substitute.

STATE TREASURER'S BOND.

Section 449 of the Political Code requires the State Treasurer to execute an official bond in the sum of \$150,000. This bond is absurdly inadequate protection for all the cash fund balance, investment securities and trust deposits in his keeping, which on Nov. 30th exceeded \$2,000,000. The law should require bonds from approved surety companies in a total sum to be fixed from time to time by the State Board of Examiners, and since the cost of such bonds would probably exceed the treasurer's \$3,000 salary, all expense should be paid by the State.

ESCHEATED ESTATES.

In an examination of Granite County this office found the Whalen Estate, consisting of an \$800 claim for a certificate of deposit issued by a Philipsburg banker, which certificate had been lost. No heirs to the estate could be found, and as the claims against it, including probate costs, would approximate \$200, there should escheat to the State about \$600. The banker was willing to pay the claim if given satisfactory indemnifying bond. The Public Administrator refused to furnish such bond because he would be a beneficiary only to the amount of his fee, less than \$60; no bonding company would give such a bond, and there being no authority for any state official to execute such bond, this estate remains unsettled and the State is deprived of the \$600 which should escheat.

To remedy this and provide for similar conditions hereafter a law should be enacted authorizing some State official, say the treasurer, to execute on behalf of the State when necessary and requested by the Attorney General, an indemnity bond.

INHERITANCE TAX.

Of this tax 40 per cent is paid into the County General School Fund and 60 per cent into the State General Fund. The State received in 1905 \$5,191.67, and in 1906 \$6,884.76. The present law (page 83 of 1897 Session Laws) is ambiguous and conflicting and as applied discriminates unjustly. Under this law and the decision of Supreme Court (22 Montana 4), there is no tax on real property passing to direct heirs (father, mother, husband, wife, child, etc.), while on personal property passing to direct heirs in amount of \$7,500 and up there is a tax of 1 per cent. "In all other cases" the tax is 5 per cent. Under this a direct heir may receive real property in any amount, say \$100,000, and there is no tax. If the same heir inherited personal property in amount of \$7,499, there is no tax; but if the amount is \$7,500 there is a tax of 1 per cent. A collateral heir (uncle, cousin, nephew, etc.), would pay 5 per cent on any property in amount of \$500.

If the small estate, say less than \$7,500, was exempt and the rate graduated according to value, on estate of \$7,500 and up, it would be more equitable than the present law or a uniform rate and yield a larger revenue. Certainly the greater the value of the estate the higher the rate it ought and can afford to pay.

CANCELLATION OF UNCALLED FOR WARRANTS IN STATE AUDITOR'S OFFICE.

There has accumulated in the State Auditor's office many warrants returned by postmasters, owners of which cannot be found. These exceed \$2,500. Some were issued over seventeen years ago, and all still show on the books as a liability. There is no law authorizing their cancellation, but there should be, because there is slight probability of the owner being found, so the liability is remote, and a dishonest officer or deputy could easily use these warrants, obtain cash on them and escape detection. All returned or uncalled for warrants one year old should be cancelled and then filed in a special drawer. If owner ever applied the records would show amount due and another warrant could then be issued therefor.

LICENSES.

More than three-fourths of license revenue is from liquor dealers, and to see that none liable escape payment the Examiner's office made a careful comparison of liquor licenses in Montana, as reported by the United States Internal Revenue Department, with a list of such licenses as reported by each county treasurer. This involved much work, but the result is valuable.

In Silver Bow County there is and has long been flagrant violation of the license law. Four or five saloons do business without paying license to the county. The county attorney prosecuted the offenders, but each jury in the justice of the peace court found the accused "not guilty." Neither grand jury indictments or injunctions are available to close these saloons.

Section 4049 of the Political Code, which requires the county treasurer to seize and sell the property of a person failing or refusing to pay license, was intended to afford ample remedy, but is not invoked by treasurers because the Montana courts have held (*Chauvin vs. Valiton*, 8 Montana, 451) that the summary seizure and sale of property belonging to another, but in use by a person from whom a license is due, violates the Fifth and Fourteenth Amendments to the United States Constitution. Section 4049 is ineffective and should be so amended as to require the county treasurer, having made diligent effort to collect the license from the liquor dealer, to make

a complaint in writing to a justice of the peace, stating therein that the liquor dealer (naming him), is doing business at (describing place by number, street, town, county and state), without a license as provided by law, and that altho diligent efforts have been made to collect the license (giving date when the license became due and the amount thereof), he refuses to pay the same (asking for judgment for the amount of license and costs). Upon such complaint being filed the justice of the peace, in addition to the subpoena, should be required to issue a warrant to the sheriff of the county directing him to proceed to said place of business, dispossess the people in charge, close the place and keep same closed until such license and all costs are paid. If the verdict of the jury upon the trial of the case is for the defendant, then the complaint should be renewed and the place kept closed by the sheriff under said renewed complaint until the license and all costs are paid. The county treasurer should be authorized to draw his warrant upon the contingent fund in his hands for the preliminary and other proceedings.

While the majority of the professional licenses over most of the State are paid with reasonable promptness, these collections are more difficult to make than any other class. In some counties so strong is the sentiment against the license demanded of doctors, lawyers and dentists that the county attorney will not prosecute delinquents, and in some Silver Bow County prosecutions the jury verdict was "not guilty." Professional licenses are less than one per cent of the total licenses collected, are unfair and unequitable, and should be repealed.

Suits were instituted in Silver Bow County to collect an aggregate of \$63,000 in oleomargarine licenses. This litigation is pending.

The whole license system of the State is crude and levied very unequally and with no regard to uniformity even on the same occupation, when divided into classes. It all needs careful revision and additional duties should be put on this office and upon the collecting officers. This office should have supervisory control in the matter of levying the license and have authority equally with the Treasurer to compel the production of books or the examination of same with the view of determining the amount of license. The merchant should be compelled to state under oath the amount of his sales during the past three or six

months, so as to give the treasurer and the State Examiner facts upon which an estimate could be based of the sales for the ensuing three months. No one should be allowed to do the business for which a license is required without having first procured the same, and if there is open and notorious violation of this, as there is in many communities of the State, the county treasurer and his bond should be held responsible.

The merchant license of this State is a fair and equitable way of collecting revenue, as it is based on the sales made, but the division into classes is unfair as it puts a heavier burden on the small dealer than on the large one.

The above applies, in a large measure, to the collection of personal property delinquent taxes. The burden of proof showing diligence should be on the county treasurer, and where he cannot show compliance with the law he and his bondsmen should be held to a strict accountability.

The State Examiner and Board of County Commissioners should have the authority to jointly order the cancellation of any personal property taxes which cannot be collected, after due diligence has been made to collect. The statute of limitations against this class of taxes is two years, so that eternal vigilance and strict compliance with law should be enforced. Before limitation expires the State Examiner and Board of County Commissioners should either bring suit against the county treasurer for the amount of the tax unpaid or have it cancelled on proper showing. Collecting officers in the United States and in other states are held to a strict compliance with the law and accountability for the non-collection of revenue. A little change in our law will produce the same results here.

STATE EXAMINER'S OFFICE—INCREASED WORK—FEES.

Due to various causes the work of the State Examiner's office has very largely increased compared with two years ago, and is fully three times more than when created in 1895. The 1905 Legislature wisely required state banks to make to the State Examiner not less than four published reports yearly. Calls for these are made five times annually, simultaneously with the call of Comptroller on national banks. The checking and tabulation of these reports takes considerable time. Besides the

fifteen new state banks incorporated in the past two years, another county was created and additional building and loan associations organized, these with a notable increase in the business of old banks, counties and all state offices, has so augmented the work that additional assistance and expense funds are absolutely necessary. The annual appropriation made by the 1905 Legislature for salaries and expense was \$7,000, exactly the same amount as was appropriated ten years ago when the office was created and had less than one third as much work. The State Examiner's first report, 1895, showed nine state banks with total assets of \$3,430,551. These banks reported quarterly to the State Auditor. There are now forty state banks, thirty-nine of which on Nov. 12, 1906, has \$23,696,892 total assets. A single bank now has assets exceeding by over \$2,000,000 the combined assets of the nine state banks in 1895. All of the forty banks report five times a year and each must be personally visited and examined annually.

Though economy has been exercised, the appropriation for office and traveling expenses, \$1,500 per annum, was not sufficient for 1906 and there is a deficiency. The railroads have furnished the Examiner with a pass, which has saved the State an expense of at least \$300.

To better perform the important duties of this office another deputy and \$750 more expense fund are needed.

The annual appropriation required for 1907 and 1908 is:

Salary State Examiner	\$2,500
Salary First Assistant State Examiner.....	2,000
Salary Second Assistant State Examiner....	1,500
Salary Deputy State Examiner	1,200
	<hr/>
	\$7,200
Traveling and office expense	2,250
	<hr/>
	\$9,450

In the past four years the fees from the Counties and Banks have paid about five sixths of the total cost of the office; and as the counties and banks require five sixths of the time and all the travelling expense such a decision is only fair to the state.

The present schedule of fees should be revised to more equitably distribute the cost among counties and banks. Silver Bow County (in which one Examiner could work continuously) has

cost four times as much as any other county and should pay more, and yet it pays the same fee as second class counties, \$250. The seventh and eighth class counties, instead of \$75, should pay \$100 at least. Allowing other counties to remain as now the revised schedule would be as follows:

Counties of the First Class.....	\$750 per year.
Counties of the Second Class	350 per year.
Counties of the Third Class	250 per year.
Counties of the Fourth Class	200 per year.
Counties of the Fifth Class	150 per year.
Counties of the Sixth Class	125 per year.
Counties of the Seventh Class	100 per year.
Counties of the Eighth Class	100 per year.

Under this revision the annual county fees would be increased from \$3,525 to \$4,350.

The forty banks on the 1903 schedule would pay \$2,425. A revision as follows would in my opinion be more equitable than the present and would increase the total fees from banks to \$3,725:

Banks With Capital Stock Annual Fee.

Up to \$25,000 inclusive	\$ 50.00
Over \$25,000 less than \$50,000	75.00
\$50,000 to \$75,000 inclusive	100.00
Over \$75,000 to \$100,000 inclusive	150.00
Over \$100,000 to \$200,000 inclusive	200.00
Over \$200,000 less than \$300,000	250.00
\$300,000 and up	300.00

One foreign building and loan association pays \$200 and five domestic associations will pay \$20 each.

The fees received under foregoing would be: Counties, \$4,350; banks, \$3,725; building and loan associations, \$300; total, \$8,375, leaving \$1,125 of proposed cost to be paid by State.

Should the Legislature put existing private banks under supervision there would be increased revenues enough from them to meet the additional expense that would be incurred.

AD VALOREM TAXATION.

The assessment of real and personal property in the State without state equalization, is getting worse each year from the standpoint of uniformity in taxation and just valuation. The only injured party is the State, because the rate is fixed and limited by the Constitution. If the Legislature would limit the tax

levy as closely in the counties as it is limited for the State, the result would be full assesment, economy in expenditures and fairly equal contribution from each county to the state revenue, or if the State would abolish its advalorem tax altogether and take all the license tax together with a graduated income tax on all corporations, with no exception, doing business within the State, and upon persons when the income exceeds, say, \$5,000 per annum, this would produce sufficient revenue for State purposes and the contribution would be fair and uniform. The total license tax on liquor dealers under the present schedule would be \$500,000 per annum and the income tax could be readily fixed so as to produce sufficient additional revenue for all legitimate purposes up to \$1,000,000, without unduly burdening any industry in the State.

COUNTY FISCAL YEAR.

In the 1904 report of late Examiner Wm. Hudnall, and in my 1905 report, it was recommended that the county fiscal year be changed because the large volume of work in December prevented treasurer and clerk from making annual reports in time for the Examiner to audit and publish by date the Legislature met.

Arguments for change to Aug. 31st (end of third quarter), are that then the treasurer and clerk have less work and the reports would reach the State Examiner in time to publish before January 1st.

For closing the county fiscal year December 31st the following reasons are urged:

1. The Commissioners, who now meet in December, could audit bills to date, warrants to pay same would be issued that month, and thus a statement Dec. 31st would cover that entire calendar year; whereas, by closing Aug. 31st, only claims, except salaries would be paid up to May 31st, save in Silver Bow County, thus leaving much of the expense for a given year to be included in report of the next year.

2. Since county officers, except treasurers, change first Monday in January, if the fiscal year ended December 31st, the fiscal reports would correspond with each administration and fair comparisons could be made, one with another. Such a comparison is impossible now and would be with August 31st as the close.

3. Annual reports could be made promptly December 31st, and would reach the Examiner almost as soon as under present conditions.

WITNESS FEES IN COURTS NOT OF RECORD.

Section 4653 as amended in 1903, page 107, requires that witnesses in courts, not of record, in criminal actions and on coroner's inquests, shall receive one dollar and fifty cents per day and ten cents per mile for each mile "actually and necessarily traveled." There is no limit to the number of witnesses or postponements of trial. In one county this law has been abused and the county auditor obliged to allow claims under it that were in part "graft." To prevent further abuse of this act I recommend that Section 4653, page 107, 1903 Laws, be amended by adding thereto the following:

Provided, a Justice of the Peace or a coroner shall not issue subpoenas for more than six witnesses in any criminal case or inquest, except upon written permission, issued in duplicate, by the County Attorney, specifying who in excess of six may be subpoenaed; nor shall the witness be allowed more than one dollar and fifty cents plus mileage for attendance on any one case, unless the County Attorney certifies that the case required more than one full day of six hours, in which case \$3 00 may be allowed as per diem, but no more.

ASSESSORS AND PERSONAL PROPERTY TAX COLLECTIONS.

There is a wide diversity of practice in the collection of per capita poor and road and the personal property taxes, and but one law. In some counties the assessor is deputized by the treasurer and collects poor and personal property tax, while about the county assessing. In several counties the assessor absolutely refuses to act as deputy treasurer. In many counties the law does not permit the county treasurer to have a deputy except in October, November and December, and as his office must be kept open it is impossible for him to collect per capita and personal property taxes in remote parts of the county. Prior to the Supreme Court decision that the treasurer was the sole tax collector, the assessor under Sections 3940 and 3967 of the Political Code collected personal property and poll tax. Under present conditions, in counties where the assessor is unwilling

to act as deputy treasurer, either these tax collections must be neglected or the cost of a special deputy's salary and traveling expenses must be incurred, which in fifth, sixth, seventh and eighth class counties is prohibited by Section 4602, Political Code.

COMMISSIONS ON PER CAPITA TAX COLLECTIONS.

There is no specific authority for paying commissions for collecting the poor or road tax. In several counties no such commissions are paid; in others the paymasters of railroad, mining and other corporations hold out a commission on all road and poor taxes collected. The rate runs from 10 per cent down to 2 1-2 per cent, the last in Silver Bow County. The practice has been justified by commissioners on the ground that it resulted in larger collections than otherwise, and that, under Section 4230 of Political Code, discretion could be exercised by the Board. The taxes are both very unjust and should be repealed, but if not repealed a commission of 2 1-2 per cent should be allowed for their collection.

DUTIES OF COUNTY CLERK.

There should be added to Section 4424, Political Code, the following:

"He must, at the close of business each quarter in the fiscal year, count the cash in the county treasurer's office and certify the amount therein to the county commissioners and State Examiner."

While this has generally been done at the request of the Examiner at times some clerks have objected and others neglected to count the treasurer's cash.

PUBLIC ADMINISTRATOR.

Too often this office is negligently conducted. The fees are small, the bond required large, and frequently the duly elected admintsrator will not qualify. In several counties the administrator does not reside at the county seat, and as the Examiner cannot afford the time and expense of a special trip, the administrator's office is not examined. In such cases the Examiner must depend on correspondence, which is rarely satisfactory. The office, to insure efficient service, should be salaried.

EMBEZZLEMENT IN SILVER BOW COUNTY.

Chief Deputy Wm. P. Farrell, in Clerk of the District Court's office, Silver Bow County, was discovered by the Examiner to be an embezzler. The details of this case are voluminous and contained in a special report to the County Attorney and County Commissioners of Silver Bow County, September 26, 1906.

Briefly, Farrell issued fraudulent juror and witness certificates amounting to \$14,252.60, and obtained cash thereon mostly through two accessories. The investigation of this consumed a month and disclosed forgery and fraud by various methods, some very clever, extending back three years. These juror and witness certificates are not checked by the Examiner because the law (Sections 4645-49 Political Code) requires the commissioners to do this, and it is a physical impossibility for the Examiner's office to make such detail check. This office has over 140 county offices and forty state banks and twelve state offices to examine.

The Examiner does, in the clerk of the court's office, make a careful check of civil, criminal and probate registers, marriage licenses and naturalization records against the fee book to ascertain that fees and fines are collected and properly accounted for. He also checks trust funds and inheritance tax records. More than this he cannot do. In Silver Bow County the commissioners did compare, each month the clerk of court's statement with certificates and affidavit stubs; on these stubs is an affidavit that the juror or witness had served — days and traveled — miles, signed by himself and the clerk or deputy. The commissioners relied on these affidavits and did not check time book or sheriff's returns. This made padding of time books and forged affidavits possible without detection, especially as these certificates are disbursements (and the only ones) for which no claims are filed with auditor.

The Clerk of the Court and his predecessor were victims of misplaced confidence in Deputy Farrell, neither clerk or other deputies being implicated. About 150 certificates were forged by Farrell. On trial for two of these he was convicted and sentenced for twenty-eight years. The accessories are either convicted or are awaiting trial. Civil suits to recover the \$14,000 have not yet been instituted.

To prevent and detect future fraud in these certificates a sys-

tem has been devised by the Examiner's office and instructions covering the same have been sent to each clerk of court in the State. Hereafter, unless there is collusion involving four offices, it will be easy for the commissioners to quickly detect error or fraud.

SHORTAGE IN PUBLIC ADMINISTRATOR'S OFFICE.

In Deer Lodge County the Public Administrator deposited his money with one of his bondsmen. This bondsman died, his estate was insolvent, and owed the administrator \$5,945.30. For this the other bondsmen are amply responsible, so no loss will accrue to estates.

Before closing this report it is but fitting that I should express my hearty appreciation of the work of Mr. F. H. Ray, the Assistant Examiner, whose work in the office and in the field has been constant and untiring and to whose knowledge and industry is due the efficiency and uniformity of county and state office methods and reports. T. E. Collins, Jr., has also rendered excellent service both in the office and in the examination of offices and banks.

Respectfully submitted,

T. E. COLLINS,
State Examiner.

STATE EXAMINER'S EXPENSE ACCOUNT.
